

## LR-XN11C

Separate Amplifier Model, Amplifier Units Main unit (M8 Connector Type)

\*Please note that accessories depicted in the image are for illustrative purposes only and may not be included with the product.

## **Specifications**

| Model                                     |                      | LR-XN11C  |
|---|----------------------|---|
| Туре                                      |                      | NPN Output/PNP Output (Selectable output)   |
| Cable/Connector                           |                      | M8 connector*1  |
| Main Unit/Expansion Unit                  |                      | Main Unit (expansion not possible)  |
| No. of Control Outputs                    |                      | 2*2   |
| No. of External Inputs                    |                      | 1*2   |
| Response Time                             |                      | 500 μs <sup>+3</sup> /1 ms/3 ms/10 ms/200 ms Selectable   |
| IO-Link                                   |                      | Specification v1.1/COM2 (38.4 kbps)   |
| Functions                                 | Timer Function       | Timer OFF/Off-delay/On-delay/One-shot/On-Off delay/On-delay One-shot  |
| I/O                                       | Control Output       | Open collector, 30 VDC or lower, N.O./N.C.  100 mA or lower for 1 output; 100 mA or lower in total for 2 outputs  Residual voltage NPN: 1.4 V or lower (output current: 10 mA or lower)/2 V or lower (output current: 10 to 100 mA), PNP: 1.6 V or lower (output current: 10 mA or lower)/2.2 V or lower (output current: 10 to 100 mA) |
|   | External Input       | External Set/Laser OFF/Zero Shift/Hold Reset/Gyro Alert RST selectable Short circuit current - NPN: 1 mA or lower, PNP: 2 mA or lower Input time: 3 ms or more ON, 20 ms or more OFF (25 ms or more ON, 25 ms or more OFF only when External Set is selected)   |
| Unit Expansion                            |                      | _   |
| Protection Circuit                        |                      | Protection against reverse power connection, protection against output overcurrent, protection against output surge, protection against reverse output connection   |
| Number of Interference Prevention Devices |                      | _   |
| Power supply                              | Power voltage        | 16 to 30 VDC*4 (including 10% ripple (P-P) or less), class 2  |
|   | Power consumption    | During normal operation: 1150 mW (47 mA or lower at 24 V, 64 mA or lower at 16 V), ECO ON/ALL: 985 mW (40 mA or lower at 24 V, 53 mA or lower at 16 V) (excluding Load Current)   |
| Environmental resistance                  | Ambient temperature  | -20 to +55°C -4°F to 131°F (no freezing)*5  |
|   | Relative humidity    | 35 to 85% RH (no condensation)  |
|   | Vibration resistance | 10 to 500 Hz; Power Spectral Density: 0.816 G <sup>2</sup> /Hz; X, Y, and Z directions  |
|   | Shock resistance     | 500 m/s <sup>2</sup> (50G); 3 times each for X, Y, and Z axes   |
| Case Material                             |                      | Main Unit and Cover: Polycarbonate  |
| Accessories                               |                      | Instruction manual  |
| Weight                                    |                      | Approx. 22 g  |

<sup>\*1</sup> Ensure the cable length is 30 m 98.4' or less for the M8 connector type. Ensure the cable length is 20 m 65.6' or less when connecting via IO-Link.

KEYENCE AMERICA 1-888-539-3623(Toll Free) https://www.keyence.com 2025/01/08 Page 1 of 2

<sup>\*2</sup> Output 2 and the external input are selectable.

 $<sup>^{*3}</sup>$  If 500  $\mu s$  is selected, the following limitations apply.

<sup>·</sup> Only 2-point calibration can be performed.

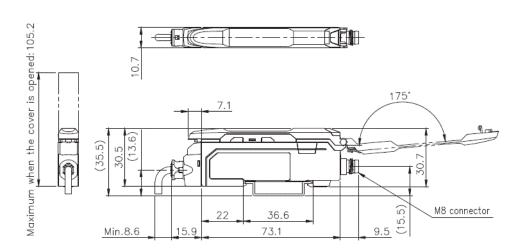

<sup>·</sup> The detection range masking is set during calibration. (Manual setting of the masking range is not supported.)

<sup>·</sup> Output 2 is limited to an alarm output for errors and gyro issues, and standard/area cannot be used.

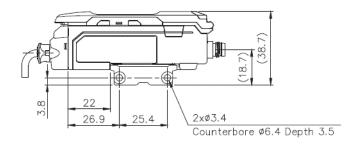

## **Dimensions**

\* Download CAD file or product manual for larger image/text and more detail.

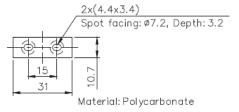

LR-XN11C

When the mounting bracket (OP-88245) is attached

Back of securing bracket

<sup>·</sup> The interference prevention function is not supported

<sup>\*4</sup> When expanding the system with 4 or more expansion units, use a power voltage of 20 V or higher.

<sup>\*5</sup> Expansion by 1 or 2 units: -20 to  $+55^{\circ}$ C  $-4^{\circ}$ F to  $131^{\circ}$ F; Expansion by 3 to 10 units: -20 to  $+50^{\circ}$ C  $-4^{\circ}$ F to  $122^{\circ}$ F, Expansion by 11 to 16 units: -20 to  $+45^{\circ}$ C  $-4^{\circ}$ F to  $113^{\circ}$ F
